

GitLab

What is GitLab?

- **Web-based DevOps platform**
- **Provides a complete CI/CD toolchain.**
- **Supports both cloud-hosted (SaaS) and self-managed deployments.**
- **Provides built-in CI/CD, security scanning, and Kubernetes integration.**

GitLab vs GitHub

- **Built-in CI/CD**
- **Self-Hosting**
- **Free Private Repositories**
- **Built-in Container Registry**
- **Security & Compliance**
- **More DevOps Features**
