

# Docker Hub Vs Docker Desktop

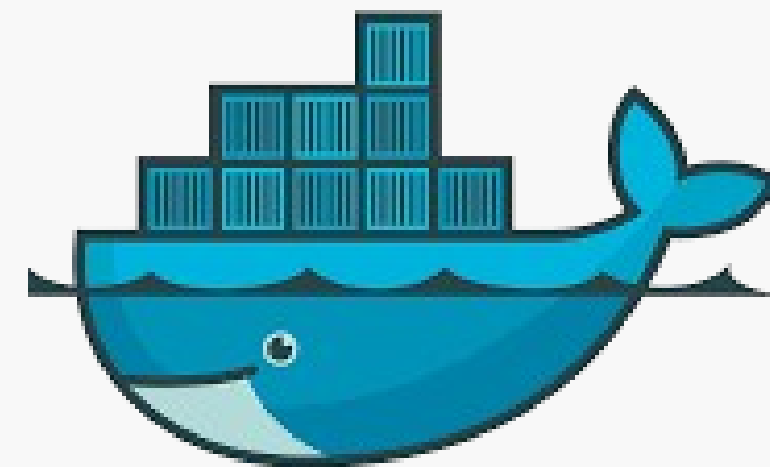

# Base (Parent) Image

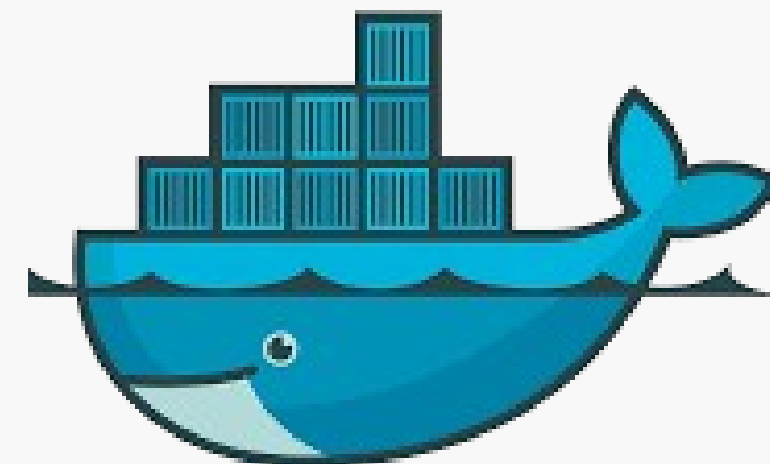

- **starting point for building a Docker Image.**
- **Can be official images.**
- **A Dockerfile inherits from a base image using FROM keyword.**

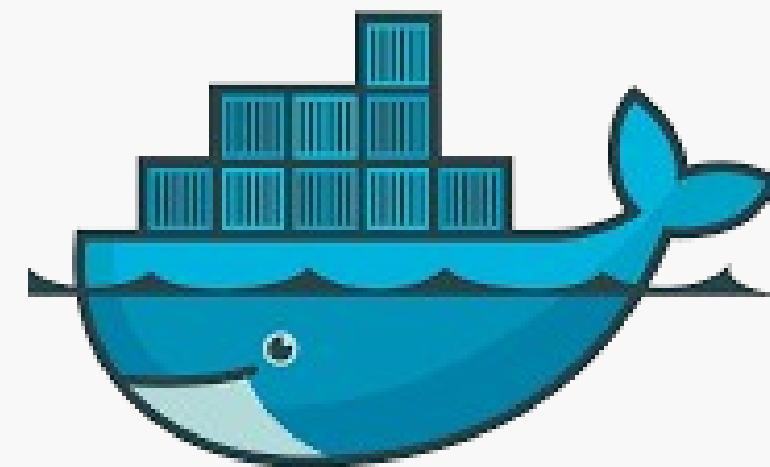

# Docker Hub?

- **Official cloud-based repository for container images.**
- **Provides pre-built images.**
- **Developers can push and pull images**

# Docker Desktop?

- **GUI-based tool to run Docker easily**
- **Comes with Docker Engine, CLI, and Kubernetes support.**
- **Helps in building, running, and managing containers.**
